DEWEY

Wins Another Victory Of 500 Prisoners.

He Captures Subig Bay and Frustrates Some Slick Schemes.

THE RALEIGH AND CONCORD DID IT.

Washington, July 13.—(Special.)—The following, under date of July 10, has been received from Manila:

Admiral Dewey has won another important victory in the capture of Grande Island, in Subig Bay, Island of Luzon. This is also a chief harbor of the Philippines.

Gen. Aguinaldo on July 6 informed Dewey that the insurgents had possession of Subig Bay, except the island controlling its entrance, which was occupied by a strong Spanish garrison. Dewey on July 7 dispatched the Raleigh and Concord to take the island and capture the garrison. They shelled the principal points of the island, destroying the fortifications and torpedo stations. Col. Rio, the commander, surrendered the 500 men comprising the garrison, who were made prisoners. Forty thousand rounds of ammunition and one Hotchkiss gun were also captured.

This victory gives the Americans control of the Subig Bay, a Spanish strategic point, and frustrates the Spanish plans to prolong their dominion in the Philippines. It also defeats Germany's supposed plan to interfere.

More Honors for Schley.

His Birth Place Has a Blowout.

Frederick, Md., July 13.—(Special.)—Schley's victory at Santiago was celebrated in a grand parade and open air meeting, with songs and speeches. This is Schley's birthplace.

A Great Spanish Victory

News via Madrid.

Madrid, July 13.—(Special.)—A Havana dispatch this morning says: Americans attempted to land at Toyabacoa, but the Garrison repulsed them. They took refuge on the warship which had fired over 200 shots to cover their disembarkation. Another attempt to land a short distance from Toyabacoa was again prevented.

An American transport is aground at Punta Coney.

M. Paternore, the French ambassador, had a long conference with Almudor De Rio, Minister of Foreign Affairs, yesterday.

Malaga Fears Grape.

An Appeal Made to France.

Madrid, July 13.—(Special.)—It is declared that the American consuls at Gibraltar and Tangier have bought enormous quantities of coal. It is reported that American colliers are between Cape Spartel and Cape Vincent. The French Commercial Company has asked the French embassy here to appeal to France to prevent the bombardment or blockade of Malaga, which is not a war port.

HERE'S ENTERPRISE.

Cuban Edition of New York Journal at Siboney.

News of Army and Navy and Dispatches from Home Create Enthusiasm Among Troops.

Siboney, July 13.—The first American newspaper published on Cuban soil—the Cuban edition of the New York Journal—was issued Monday. It astonished the camp and the flotilla, and the Jackie joined with the army boys in cheering the paper and celebrating the event.

The number was distributed in the trenches all along the fighting line; went to the wounded men in the hospitals and was preserved as a souvenir by the officers. It gave to the flotilla news of the army, and to the army news of the ships. It reached every vessel every company. Everywhere it was greeted with approval and comments like this:

"That's American enterprise for you." "We'll soon give you a chance to shout 'Extra' in Santiago."

The navy news was gathered by correspondents on the dispatch boats Silvia and Simpson, while Howard collected items about the army from the commanding general's tent to the remotest outpost overlooking the trenches of Santiago. The printing was supervised by George Panoast, all the type and machinery necessary for getting out a complete newspaper having been sent from the front by the Journal from New York.

At the head of the first page is a seven-column line in prominent type, "Only a Step to Santiago, and President McKinley's greeting to the army and navy is prominently displayed.

The news from home, furnished in condensed form, created great satisfaction. All the important happenings in all parts of the United States were included in the issue.

DEMOCRATIC CONVENTION.

McCreary 64, Gilbert 54, Thompson 23 and Crutcher 14.

Danville, Ky., July 13.—(Special.)—The Congressional Convention adjourned last night in a deadlock until this morning.

The situation remains unchanged. It looks as though Gilbert will be the nominee, unless McCreary throws his entire vote to Crutcher, which seems now impossible, as there are several members of the Lincoln county delegation who will vote for Gilbert in case the contest falls between Gilbert and Crutcher. There appears to be a close alliance between Crutcher and McCreary, but in the Jessamine county delegation there are seven members who will in no case vote for McCreary, and this indicates that he has no chance to win the nomination, though his friends are keeping up a brave front and will not admit that their candidate is beaten.

There seems to be but little probability of a nomination before tonight, as there is no chance to break the deadlock until Crutcher's friends are satisfied that he has no chance of a nomination.

Was Not Suicide.

The Elkhorn Progress wrote up the drowning of Frank Ostein, at Johnson's Mill, Saturday, as a case of suicide. The drowning was undoubtedly accidental, as reported by the only two witnesses. Ostein died crying for help and struggling to get out.

YELLOW JACK.

No Doubt That it Has Broken Out at Santiago.

Full Extent of the Fever is Not Made Known by the Authorities.

Washington, July 13.—(Special.)—Yellow fever has undoubtedly broken out among the troops in the vicinity of Santiago.

Dispatches containing this information were received to-day. Every precaution will be taken to prevent the spread of the disease.

Hospitals and special quarantine camps will be established. Information as to the extent of the fever is refused. It is supposed to have started at Siboney.

YELLOW FEVER AT SIBONEY.

Fourteen Cases Among the American Troops.

Washington, July 13.—Surgeon Walter Wyman, of the Marine hospital service, has received information that there are fourteen cases of yellow fever among the United States troops at Siboney. It is understood that the government will abandon the Dry Tortugas as a military station and give it back to the Marine hospital service.

REGIMENTS OF CUBANS.

T. Estrada Palma Raising Regiment for Aiger in the South.

Washington, D. C., July 13.—Gen. Tongas Estrada Palmer, the delegate plenipotentiary of the Cuban Republic in New York, who left there July 3 for Tampa, where he joined Señor Moreno de la Tope, the Cuban secretary of state, is still in the south, executing what his friends term a commission intrusted to him by the war department.

The news from home, furnished in condensed form, created great satisfaction. All the important happenings in all parts of the United States were included in the issue.

ESTRADA PALMA.

ment here. It is said that in accordance with arrangements made with Secretary Alger and Gen. Corbin he is superintending the preparation of a series of expeditions of Cubans in Key West and southern Florida, who will accompany American troops in various parts of Cuba. These troops, it is reported, will be enlisted and equipped by the United States and commanded by Cuban officers who will be brought over from the Cuban army of liberation on the island. They will accompany various sections of the American army to Las Villas, Matanzas, Havana and Pinar del Rio for scouting and guide duty as well as for fighting.

Wounded Soldiers Arrive.
Newport News, July 13.—(Special.)—The first transport bringing wounded soldiers to the field hospital, at Old Point Comfort, arrived this morning.

Crowds Going Abroad.
New York, July 13.—(Special.)—Great crowds of American tourists are now going to Europe for vacations, feeling that peace is near at hand.

SCARE

Over Yellow Fever Reports From Cuba.

War Board Holds a Secret Meeting and Keeps Mum.

A VERY BAD TURN IN AFFAIRS.

Washington, July 13.—(Special.)—The War Department this morning received a dispatch from Gen. Miles. Most of its contents were withheld, but the information is given that the situation at Santiago is practically unchanged.

There has been no fighting since 2 p. m. Monday.

The officials are very reticent about the yellow fever reports. Congressman Hiburn, of California, says the report is true and that the War Board met this morning. The meeting was very secret.

Washington, July 13.—(Special.)—Gen. Shafter telegraphs to-day that he has had an interview of an hour and a half with Gen. Toral and has extended the truce till to-morrow. He told him surrender was the only thing to be considered and that he was without hope of escape and had no right to continue to fight in the face of such facts.

Shafter hopes for surrender, but if Toral refuses he will open on him with every gun, with assistance of the navy, which is ready to bombard the city with 13-inch guns.

The meeting was held between the lines and Shafter, Wheeler and Toral were present. The latter claims he was unable to act without authority of his government, but had received authority to withdraw and surrender the harbor, ports, munitions of war and the Eastern portion of Cuba. He urgently requested until to-morrow at noon to receive the answer from his government, regarding an offer of our government to send his forces to Spain if surrendered.

Sec. Alger has telegraphed Gen. Miles that Toral's request for permission to withdraw is declined.

Augusti Sends Bad News.

Americans are at it Again.

Madrid, July 13.—(Special.)—Official dispatches from Iloilo say the German cruiser that left Manila July 5 brought a letter from Augusti which says the Americans are ready to act against the island of Mandona. Inhabitants of the island of Luzon have arisen en masse.

Two native chiefs were shot for rebellion.

On a Cattle Ship

The Spanish Spies Left.

Montreal, July 13.—(Special.)—Du Bosc and Carranza, the head of the Spanish spy bureau in Canada, sailed for Liverpool on a cattle ship to-day. They received peremptory orders to leave the country.

The Nichtheroy Useless

Except for a Collier.

Washington, July 13.—(Special.)—The Buffalo, formerly the Nichtheroy, will be used as a collier. It will cost \$300,000 to convert her into an auxiliary cruiser, which is regarded as too expensive.

CRISTO IS DEAD.

Shot By Officer Geo. Lander Yesterday Evening.

A big thoroughbred St. Bernard, the property of Masters Henry and Jack Stites, was killed at 5 o'clock yesterday afternoon by officer Geo. Lander. He was at Jather & West's warehouse at the L. & N. Depot and ran into the street barking at the officer who passed on a horse and he drew a pistol and shot the dog, killing him. He was perhaps the finest dog in the city, being a pedigreed specimen of the St. Bernard breed.

and was valued at \$75.

He was only two years old but very large and playful. His name was "Cristo" and he was very much admired by all who saw him. Of late he had contracted the bad habit of leaving home and this got him into the trouble that ended his life.

DEMOCRATIC TICKET.

FOR CONGRESS,
HENRY D. ALLEN,
OF UNION COUNTY.

The latest census of India shows 6,016,759 girls under nine years old who are married and 170 of them are widows.

The Democrats and Populists of Illinois have agreed upon a joint ticket. Both parties are holding State conventions at Springfield.

Premier Sagasta, the head of the Spanish ministry, has resigned and another of those troublesome crises that arise about every two weeks is disturbing the innards of Spain.

Senor Du Bosc, late secretary of the Spanish Legation and Lieut. Carranza, military attache, have been ordered out of Canada and left last night for Liverpool.

Orders have been given to remove all submarine mines from the harbors of the United States. The government no longer fears possible danger from Spanish warships.

Ex-Senator Omar D. Conger, of Michigan, who left the Senate in 1887, died the other day in Washington and few people remembered that he had ever been in the Senate.

The Alphonso XII seems to have as many lives as a cat. It is now claimed that the ship run ashore near Mariel was not the Alphonso, but a steamship loaded with ammunition and supplies.

Hon. Chas. Offutt, formerly of Paris, and ex-speaker of the Kentucky house of representatives, is dangerously ill at his home in Omaha, Neb., and there is little hope of his recovery.

A Louisville artist named Klauber had his life saved by an aching tooth. He was preparing to go to Europe on the Bourgogne, but suddenly attack of toothache kept him at home.

In the United States Circuit Court at Wilmington, Richard Collins Kenny, junior United States Senator from Delaware, is on trial upon an indictment charging him with aiding and abetting Wm. N. Boggs, who confessed to robbing the First National bank of Dover, of which institution he was paying teller, of the sum of \$107,000. Senator Kenny is accused of aiding and abetting Boggs to the extent of \$3,500.

Secretary Long has been in receipt of telegrams of a personal nature from Commodore Schley, and it is believed from Admiral Sampson as well. It is supposed they have been called forth by the newspaper controversy over the credit of the victory over the Spanish squadron. Secretary Long declines to make public the cablegrams. Whatever may be the Secretary's opinion, the public has already given the credit of the victory to Schley.

Col. Jolly is evidently expecting to be run over by the Franks bandwagon, driven by young Fowler, on the 29th proximo. An Owensesboro special says:

"Ex-District Attorney G. W. Jolly, who has been tendered the position of referee in bankruptcy by Judge Barr, will defer his decision in the matter until the territorial limits are more definitely announced."

If Col. Jolly wants an office of any kind he will accept. A sure thing beats a slim chance for an empty honor.

Ben T. Cable, who two years ago was one of the leaders of the gold movement in Illinois, has been elected a member of the Democratic State Central Committee, in a convention looked down upon by the picture of W. J. Bryan. Some objection was raised, but the man who nominated Cable got up and said: "St. Peter went back on Christ and yet they say he has the key to heaven to-day." Cable decries in good faith to return to the party.

One of the leading papers of St. Petersburg says Russia is willing for the United States to hold the Philippines. The Novoe Vremya says:

"Russia has no positive interest in the Philippine Islands. If they were divided, the United States would be the greatest power in the Pacific, thereby strengthening them. Therefore, it is to Russia's advantage that the Philippine Islands remain in the possession of a single power, whether Spain or the United States, and Russia would prefer to see the United States in possession of Spain, and under the protection of the United States, who would keep out other claimants. By working in this direction Russia would not only uphold her own interests, but would serve the cause of general peace."

Young Willie Hearst, the Napolitan of journalism in the United States, has again astonished the Western hemisphere with his enterprise. He is following up the American army with a Cuban edition of the New York Journal, at present printed at Siboney. The KENTUCKIAN has been thinking of doing something of that sort, but has let the Journal get ahead of it.

West Philadelphia has a girl bricklayer. She recently made a wager with her father, a builder for 30 years, that she could beat him in topping off a chimney. She won the wager all right. The girl was educated in a manual training school.

The long delay in beginning hostilities is likely to prove costly to the Government in human life. Yellow fever has broken out among the American troops at Siboney and Gen. Miles has burned the town as a health measure.

The next congress will be asked to build a cable to Honolulu, a distance of a little over 2000 miles.

KENTUCKY CROP REPORT.

Condition of Crops and Live Stock
July 1st, 1898.

For the July report replies were received from 148 correspondents, representing 95 counties.

Wheat.
Development of the wheat crop during the month of June shows the following results in the great wheat growing States of the Mississippi valley: In Ohio and Michigan the crop is fair, both in yield and quality. In Illinois, Missouri and Kansas the crop has suffered greatly during June from rust and chinch bug, and the quality will be poor, owing to damage from these sources. The quality is greatly impaired by the presence of an unusually large number of smut heads. Where threshing has begun the yield is very disappointing. In Iowa, Wisconsin and Nebraska winter wheat varies from very fine in some sections to poor in others. In these States spring wheat is threatened with rust, owing to the extremely rank growth of the plant.

In Kentucky the exceptionally fine showing of June 1st has not been maintained and the crop is fully from one-fourth to one-third short of what was anticipated. The most frequently mentioned cause of damage is rust, which seems to have been general. The crop ripened prematurely and the filling is very imperfect, rarely more than two grains to the mesh being found. The berry is lacking in plumpness, which, together with the presence of considerable smut, will materially interfere with quality.

In the western section of the State the crop has been damaged by rain since harvest. The estimated average yield per acre for the State is 13 bushels. In 1897 the estimate yield July 1st was 12 bushels and 6½ bushels for a corresponding date of 1896.

For the western section the yield is 13 bushels; for the central and eastern it is 16 and 11 bushels respectively.

Corn.
Favorable weather conditions have prevailed during June and the corn crop is now in excellent condition. The average for the State is 96, an improvement of four points

during the month. On July 1st, 1897, the condition was 87.

In the western section a few counties, including Union, Webster, Caldwell and Trigg, report the crop suffering for want of cultivation, which has been interfered with by excessive rainfall. In the central section the drought has been relieved in those counties along the northern border and the crop is fast regaining lost ground from this source.

Taking the State as sections the conditions are: For the Western, 93; Central, 96, and Eastern, 100; each being an improvement during June.

Oats.

The condition of the oat crop is 85 for the State as against 91 on June 1st. On July 1st, 1897, the condition was 80. The crop has improved in the central and about held its own in the eastern section, but in the western section it has fallen off from 9% on June 1st to 71 on July 1st.

Tobacco.

The acreage of tobacco compared with 1897 is 123 per cent., or 237,038 acres for the State. The eastern section reports the greatest increase, viz: 36 per cent. In the western section the acreage is increased 23 per cent., while in the central section the increase is but 9 per cent.

The condition of the crop shows an average of 92 for the entire State. July 1, 1897, the condition was 68, and on the same date of 1896 the condition was 92. In the western section the crop is, to some extent, foul. Grasshoppers and worms are reported preying on the plants and the utmost vigilance will be required to maintain present condition of 93.

In the central section the crop is very spotted and the stand is poor. The first setting is growing nicely, but the replant seems to be getting a poor start, which gives the crop a ragged appearance. Here the condition compared with an average is but 84.

In those counties of the eastern section where a crop is grown the condition appears excellent with a greatly increased acreage.

Hemp.

The condition of the hemp crop is 86 as compared with average years. On July 1st, 1897, the condition was 87 as for a corresponding date of 1896 it was 80.

Meadows and Pastures.

The acreage of clover meadows cut as compared with 1897 is 97. The yield, both as to quantity and quality is good. Of timothy meadows the acreage as compared with 1897 is 94. The yield is light and the quality of much of it is poor, owing to the presence of weeds. Pastures are most excellent, the condition being 99.

Livestock is in satisfactory condition. The demand for stock ewes has greatly increased, and farmers are turning their attention largely to sheep breeding.

LUCAS MOORE,
Commissioner of Agriculture.

How Jacob Died.

The report that Charles D. Jacob, Jr., of Louisville, was killed in the attack on the Spanish trenches at San Juan, before Santiago, July 1, has been fully confirmed.

Young Jacob was struck and instantly killed while attempting to carry a wounded comrade out of the line of fire. The story of his heroic death is told by several eyewitnesses, who were wounded in the action and have been sent to Fort McPherson, Ga.

Victim of a Skin Game.

Bowling Green, Ky., July 13.—G. W. Cherry, who read law under Hon. Wilber F. Browder and was official stenographer for Logan county, started from Seattle with \$1,200 for the Yukon gold fields.

En route he met three sets of sharpers and when they got through with him he had barely enough left to get back to Seattle, where he has again located and settled down to stenography.

The Acres of Cuba.

The Island of Cuba contains about 35,000,000 acres—7,000,000 more than the State of Kentucky. Of these only about 2,000,000 have been cultivated. Of the remainder 9,000,000 are natural pasture, and 17,000,000 are covered with virgin forests; 7,000,000 acres, about 20 per cent., are of inferior value as agricultural or timber lands.

We've got the ships, we've got the men and especially we have the money.

Tobacco Statistics for 1897.

The word says: According to assess-

or's report Davisess county raised \$1,075

255 bounds of tobacco in 1897, the larg-

est yield of any county of the State.

Gravescoome comes next with a yield of

5,237,894 pounds, Christias third

with 4,832,355 pounds to its credit,

and Webster fourth with a yield of

\$81,965 pounds. Making a total yield

for the four largest counties, (all in the

Dark belt) of 21,197,469 pounds. No

doubt this is 25 per cent less than

what was actually raised in the coun-

ties. The Burley section produced

40,497,759 pounds in 1897, against 66,

196,248 pounds in the dark section. The

mountain section, which is a new Bur-

ley country produced 143,638 pounds.

CLIPPED AND COMPILED.

Cervera was like the loser in a poker game trying to better himself by drawing to a pair of deuces.

With two secretaries, the President may be able to keep up with the "outfits" and save the country at the same time.

Between the Spaniards starving them to death and Uncle Samuel feeding them to death, not many of the Cubans will be left.

No vessel ought to move in a dense fog. Weeks of delay would be preferable to such a sea horror as that of July 4.

The greatest loss of officers in the present war is not likely to much reduce the number of applications for commissions. It may not even scare the sons of the papas.

Philadelphia street railroads are more profitable than those of any other city. That proverb about Philadelphia being born tired is founded on fact.

It is reported that the soldiers of the volunteer army are scrambling for the New Testament that have been sent them. They may therefore learn to pray for the Spaniards before proceeding to destroy them.

When it is understood that the sailors and officers of Schley's fleet will have more than \$170,000 to divide as prize money for their few hours' work in pounding Cervera's ship to oblivion, there will be no lack of young men anxious to be Jackie for Utolo Sam.

The Kansas woman who has thrashed the man that took her husband away from home to "have a good time" has set an example which may make a good deal of trouble for other such jolly fellows. So much feminine vigor goes far toward developing the home feeling in a careless husband who is too ready to fall in with any sort of company.

There are 13 crying babies next door to a Washington man and he fiercely announces that he has had no sleep for two weeks. Visitors come no more to his home, and his wife has lost 17 pounds. There is probably no help for this state of affairs as our standing army is all in Cuba, the courageous infants at the Capital of the Nation cannot be suppressed until after the war.

Camara's fleet is not submarine, and Watson will catch him "if he doesn't watch out."

SINKING FORK ITEMS.

Sinking Fork, Ky., July 12, 1898.—I will after a long silence again bring to public notice this little wayside village.

Mrs. W. C. West, of Hopkinsville, visited her parents here Saturday and Sunday.

Mr. Jess Payne returned from Edmonton this week.

Blackberries are plentiful and pickers likewise.

Misses Donia Wooley and Effie Wood are spending a few weeks at Dawson for the benefit of their health.

Mr. Winfield Wood, who has been at Phoenix, Arizona, for the past two years, has returned home.

Elder W. H. Moore will fill his regular appointment here Sunday.

Corn and tobacco are looking fine in this portion of the county.

Misses Ruby and Addie Hiser spent Tuesday at "Melrose."

The protracted meeting will begin at the Baptist church the fourth Sunday in this month. It will be conducted by J. G. Bowe, of Pembroke.

Mr. Mack Sizemore has declined the idea of going to war, but will still do business at the same old stand.

Prof. L. W. Guthrie was here last week in the interest of Cherry Bros. school of Bowling Green.

The merchants of this place are doing a thriving business.

The general health of the community is good.

A Chinaman and a Spaniard are equally formidable on the sea.

There are disasters at sea which are far more deadly than naval battles.

We should raise and repair the Cristobal Colou and make it the Christopher Columbus.

A TRAMP HURT.

M. W. Goldman Fell From a Train This Morning.

A white tramp giving his name as M. W. Goldman, of New York, fell from south bound freight train No. 65 this morning at 8:46 o'clock, near the Acme Mills. He was stealing a ride and fell between two cars, while the train was moving slowly. He got off the track but sustained some injuries by falling on the rough ground. His head was bruised, but he was able to get up. He was taken to the depot by a brakeman and the train men put a bandage on his head. He is a young man 28 years old.

WOOD CONGRATULATED.
Heads the Honor Roll for Business for His Company for June.

Mr. Eugene Wood, general agent for Christian and adjoining counties, of the Fidelity Mutual Life, of Philadelphia, has received this telegram from the State Manager for Kentucky:

"Accept congratulations and best wishes for future. Shake. . . . Your PARISH."

This refers to the fact that Mr. Wood heads the honor-roll of the agents in the United States who produced the largest business for the month of June. His name also appears as seventh on the honor roll for May and has frequently appeared on the roll for other months, which is a very great honor and one highly prized by the Fidelity's agents. In addition to heading the honor roll, Mr. Wood also captured the State agent's prize, for the greatest amount of business produced during April, May and June, which entitles him to a free trip and return to the home office, a two week's stop at Atlantic City, all expenses paid and twenty-five dollars for incidentals, or the equivalent in cash.

Since Mr. Wood's connection with the Fidelity, about two and one half years ago, a large number of representative business men in his territory have taken policies in the excellent company he represents, and his advancement has been not only rapid but very gratifying to his hosts of friends wherever he is known.

OBJECTION TO THE POST.

Mr. Willis G. Perry Has a Hot Dispute With Telephone Men.

Mr. Willis G. Perry raised objections yesterday evening to the planting of a large telephone post in front of his residence on East Ninth street and had some hot words with the workmen of the telephone company. The telephone people sent for an officer and Officer West was sent to see about it. Mr. Perry still threatened violence if the post was planted and he was placed under arrest and the workmen filled up the hole. The post is certainly not a very suitable ornament for a front doorway and Mr. Perry has a grievance the Council will probably attend to when it meets.

A Kentucky Soldier Dies.

William F. Anderson, Company I, died at Chickamauga, at 8:30 o'clock Monday night at Leiter Field, of typhoid fever. He was twenty years old. His home was in Pulaski county. None of the family was at the deathbed. Anderson was taken sick July 2. The remains were sent to his home.

Charged With Desertion.

A general alarm was sent out from police headquarters at New York Tuesday for twenty-two men said to have deserted from the United States auxiliary cruiser Yankee, lying off Thompsonville. The men were granted shore leave and remained away from the ship over-time.

Colson's Regiment Still Short.

Lexington Ky., July 13.—More recruits are needed for the Fourth regiment, one hundred and fifty being necessary to complete the quota. Capt. Treadaway and Capt. Forrester's companies will be mustered to-day, and Capt. Patrick's company will be uniformed. Capt. Corrigan's company is to be presented with a flag Sunday by the ladies of Mayville.

FLAG OF TRUCE

Kept Flying All Day Yesterday and a Storm Raged.

Many Spanish Soldiers Have Escaped From the City—Sloboney Burned.

Washington, July 13.—(Special.)

Another demand for the surrender of Santiago was made. The demand was presented by Gen. Wheeler. It was pointed out to Gen. Toral, the Spanish commander, that the American bombardment had demonstrated that the city could be destroyed at will, and that it should be surrendered in the interest of humanity.

Gen. T. Roosevelt to his old device of asking time to refer the matter to Madrid, and the flag of truce was by this means kept flying the rest of the day. There was no surrender, and heavy tropical storm prevented further fighting.

The American line has been pushed still farther to the westward, and it is now believed that all way of escape from Santiago has been cut off. It is undeniable that numerous bodies of Spanish soldiers have left Santiago, but it is not known how far this evacuation has gone.

Maj. Gen. Miles has now assumed personal command of the forces and promises to take Santiago within three days, unless Toral complies with the last demand for surrender. A portion of Santiago has already been destroyed by fire caused by the bombardment. With Maj. Gen. Miles there arrived about 4,000 reinforcements. Forty pieces of armor were mounted and ready for use. Maj. Gen. Miles yesterday ordered the destruction by fire of the town of Siboney as a health measure.

Preparations are now well under way for the Porto Rican expedition. Of the expedition of 25,000 men 10,000 will be regulars. All volunteers now at seaports or under orders to move are going to Porto Rico, and the others needed will probably be embarked from Philadelphia and New York. The naval force for the expedition will consist of the battleships Iowa, Indiana and Texas and the armored cruisers Brooklyn and New York. Maj. Gen. J. R. Brooke will command the army.

Considerable inquiry has sprung up in the hog market since the harvest fields are about to be opened and the corn promise is so abundant.

Moonlight picnics will soon be the order of the day and will probably supersede prayer meeting as a place of courtship for a month or more to follow, after which tract meetings will be held at hand, and the "fall races" will afford opportunities ad libitum. Children's Days have been the rage until I sincerely believe that every child likes "every dog has its day."

Miss Lucy Harris, of Gallatin, Tenn., is visiting her aunt Mrs. Dickerson. She is both handsome and stylish and already her various charms of person and grace of manner have made more than one heart go pit-a-pat.

Miss Mary Embry has been visiting her cousin, Miss Jessie, near here the past week. Having formerly lived in this neighborhood, she experienced quite a pleasure in meeting a number of her old friends and acquaintances.

Miss Jessie Embry's (who is keeping house for her father) latest order to her cook was to have broom corn for dinner. Sam says she graduated he believes from a cooking school. She also objects to her cook having "smothered chicken," saying it is too cruel and wants them electrocuted.

METZ & LAYNE.

A New Firm to Open Up at Trenton September 1st.

Mesara. Joe Metz and Oscar E. Layne will about the middle of next month remove from this city to Trenton, Ky., where they will on September 1st open up a new dry goods store under the firm name of Metz & Layne.

It will be backed by unlimited capital and will have the supervision of two experienced and successful merchants.

Mr. Metz, who is in business in this city, was a merchant at Trenton for many years and was very successful.

Mr. Layne, formerly of the firm of Layne Bros., at Fairview, but now with Sam Franklin, of this city, is also an experienced and enterprising merchant.

They are both popular gentlemen. While we regret to lose them from Hopkinsville, we congratulate Trenton upon securing such good citizens and reliable business men.

Many Items From Howell.

Howell, July 12.—The copious showers for the past ten days have at last afforded me the opportunity of writing the items that follow:

Wheat threshing is greatly delayed. Corn promises unusually well. Tobacco is growing too rapidly and is not developing that breadth of leaf which makes a fine or heavy article; much of it was drowned and perhaps more washed out by the recent rains, and still another large per cent is growing in severe competition with crab grass and various noxious weeds, so the outlook is not altogether as favorable as could be wished. The standing of clover from last spring's seeding was never better.

Considerable inquiry has sprung up in the hog market since the harvest fields are about to be opened and the corn promise is so abundant.

Moonlight picnics will soon be the order of the day and will probably supersede prayer meeting as a place of courtship for a month or more to follow, after which tract meetings will be held at hand, and the "fall races" will afford opportunities ad libitum.
